Possibility to sell DIY sets under your own brand.

8

Reliability

We sold thousands of doors without defects. Development of new solutions and all production processes under our strict control.

9

Ideal solution for your stock and logistic

20 DIY sets on one pallette.
Up to 200 DIY sets fit in one truck, which guarantee a low-budget and effective logistics.

10

We are the first

This product can not be offered to you by any other company. We came with the list of know-how ideas.

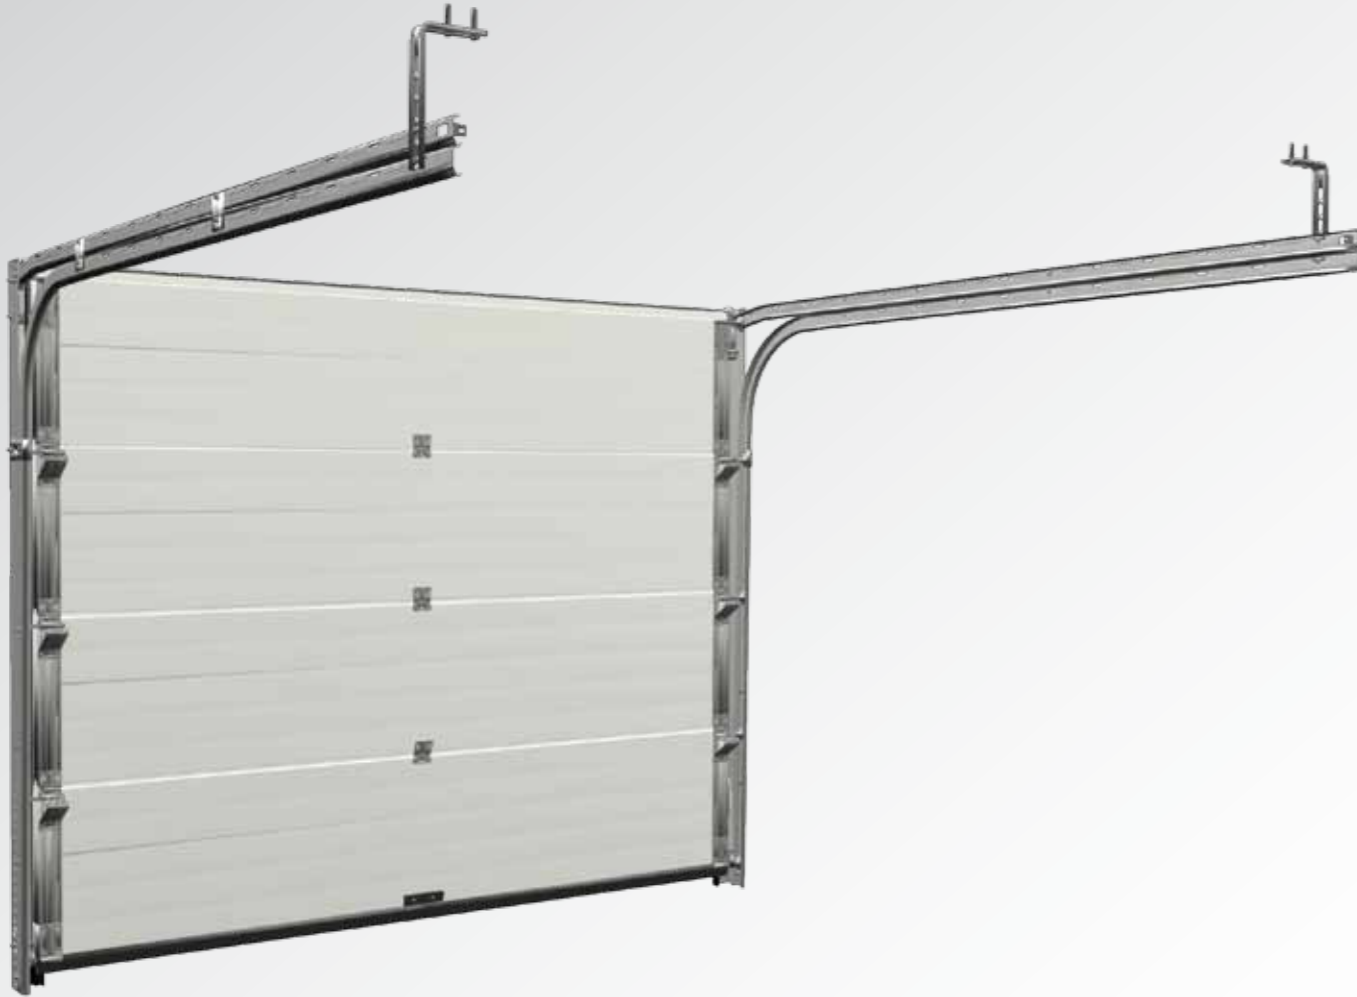

IMMEDIATELY

SELF

LOW-BUDGET

AND COMFORTABLE

Technical informations and general terms of trade

One of the most thermal insulated doors on the market

Thermal insulation of sandwich panels (40 mm). Thermal transmittance $U = 1,2W/(m^2.K)$. Doors are sealed along the perimeter. Hidden bottom profile with rubber sealing.

Apparently the most resistant and reliable doors on the market

Most of components are made from steel.

Tensions springs system

Springs are compatible with all door dimensions.

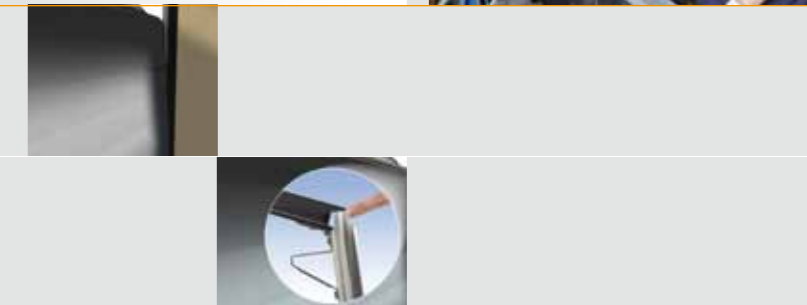

Adjustable door movement

It is possible to adjust door movement using punched guides and screw connections.

Safety

Panels with finger protection.

Operator

We recommend to equip the doors with DIY – 500KITCE operator, for a more comfortable use. The operator is supplied with a folding rail and two 4-channel transmitters in a compact package.
